

E-Bike Requirements

How we work:

Fettle is unable to work on e-bikes that don't comply with UK safety regulations.

Bike shops can be heavily fined for working on e-bikes that are not road legal.

An illegal e-bike will have at least one of the following:

No sticker/ metal plate:

An illegal e-bike will be missing the specification sticker/ metal plate giving details of its components and motor.

Throttle:

A throttle that assists in reaching speeds above 6kmph.

Speed:

If the bike reaches speeds of over 25kmph, it is illegal.

Motor:

A motor exceeding 250W in power.

Keeping London's riders, riding.
